

Controlled Unclassified Information Program Support

Department of the Interior (DOI) | Blanket Purchase Agreement (BPA)

CUI Program at DOI

The CUI Program requires agencies to implement standardized protections, markings, and management of sensitive unclassified information. DOI has numerous mission and infrastructure information systems that contain sensitive information and need to be properly managed to enable proper transparency. Based on our ongoing development and support of CUI programs across the federal government, Savan Group is ready to assess DOI information systems to ensure that CUI is safeguarded, handled, and marked according to the federal standards.

CUI Support Services Covered

DOI has information management systems requiring CUI services:

- ✓ **System Inventories to Identify CUI:** Identifying all pertinent sensitive information categories and subcategories active on the federal CUI Registry
- ✓ **Systems Evaluations for CUI Compliance:** Evaluating systems for CUI safeguarding, handling, and/or marking compliance with 32 CFR Part 2002, CUI, and the CUI Marking Handbook requirements
- ✓ **Corrective Design Support:** Analyzing compliance issues and recommending targeted solutions and corrective actions, detailing the solution's benefits, dependencies, constraints, costs, and risks
- ✓ **Executive Reporting:** Summarizing our findings and presenting them to DOI leadership

Benefits of Savan Group

Savan Group's service on this BPA benefits DOI in several ways:

Delivering vital IT tool support to accelerate progress toward CUI compliance

Compliance Dashboard: Breaks down 32 CFR 2002 requirements, tracks agency implementation progress, and provides high-level progress visibility

Natural Language Processor: Rapidly identifies policies and procedures that will be impacted by the CUI Program with customizable search algorithms

Providing seasoned CUI experts and lessons learned drawn from successfully tailoring and implementing CUI Programs across five federal agencies; we built a flexible framework to deliver baseline assessments, policy analysis, training and awareness communications, and program plan development

U.S. Department of Veterans Affairs

Select CUI Past Performance

Department of Veterans Affairs

Office of Information and Technology

Savan Group is implementing an enterprise-wide CUI program across the Department of Veterans Affairs:

- Performing gap analysis of existing information systems, security controls, and policies
- Drafting a CUI directive tailored from the final version of 32 CFR 2002 and creating a marking handbook compliant with the new CUI markings and limited dissemination controls
- Establishing a self-inspection program that integrates tracking and reporting capabilities and defining a process for incident reporting and challenges to CUI designation

Commodities and Futures Trading Commission

Office of the Executive Director

Savan Group is providing consulting support for CFTC's CUI program:

- Identifying gaps between the current state and compliance with the EO 13556 and 32 CFR 2002
- Providing recommendations around leveraging CFTC's existing or planned self-inspection capabilities and designing an approach to build measurable criteria into CUI policy and procedure
- Creating an outreach and awareness strategy to engage the CFTC workforce on the marking and handling changes, following training recommendations to meet the 32 CFR 2002 requirements

Internal Revenue Service

Privacy, Governmental Liaison and Disclosure

Savan Group is leading strategic planning and implementation of Records Information Management and CUI solutions to ensure compliance, streamline enterprise processes, and safeguard information:

- Planning and implementing a CUI program using a tailored three phase approach
- Providing strategic planning to manage IRS's unstructured data in accordance with §36 CFR 1236.20 and Office of Management and Budget M-12-18

About Savan Group

Savan Group is a management and IT consulting firm. We are the trusted partner to public sector clients to help them solve their most critical management and operational challenges to achieve sustainable success that is uniquely tailored to each client environment.

Management Consulting

Strategy & Implementation | Change Management | Project Management Support | Enterprise Risk Management | Workforce Planning

We combine a big-picture understanding of our client's mission with a pragmatic approach to enable change across all levels of the organization. We do this through a blend of rigorous analysis, proven frameworks, lessons learned, and best practices.

IT Services

IT Management | IT Governance & SDLC | Enterprise Architecture | CIO Advisory | Capital & Budgetary Planning

We leverage IT to improve and accelerate core processes and optimize business performance. Our team uses extensive knowledge and experience in IT with our traditional strengths in strategy, organization, and operations.

Digital Transformation

Digital Strategy | Advanced Analytics | Data Visualization | Intelligent Automation | Agile

Savan Group's Digital Transformation service line provides clients with a process-oriented approach to using the data you have to highlight which digital strategy your organization should take or identifying the data-points that will be a catalyst to take your organization to the next level. We want to be there through every step of the process.
